Re: No exports to Burma (Myanmar)

On October 19, 2007, President Bush expanded sanctions against Burma (also known as Myanmar). As a result, Burma has been added to the list of countries to which Owen Oil Tools will not export to as a matter of company policy.

Effective immediately, and until further notice, exports to Burma of any and all commodities are prohibited.

The complete list of countries to which Owen Oil Tools does not export to is as follows:

Burma (Myanmar)
Cuba
Iran
North Korea
Sudan
Syria

A notice has been prepared and published regarding this policy change on the [Export Control page](#) of [OCSResponds.com](#).
